

PERFECTION IN A BOX

MADE IN ITALY

2022

Cantoni has been working for years to raise the profile of make-up artist, studying their needs in the workplace and developing the most effective tools to support their artistic talent and technical skills.

OUR CONCEPT

We believe that to be recognized as talents in the world of beauty it is essential to enter the market in the proper way, enhancing out professionalism taking care of our image.

OUR MISSION

Our main objective is to give fashion, make-up and beauty professionals a range of indispensable and technologically advanced products, produced with great attention to detail and capable of improving performance in all types of working conditions.

To achieve this goal, Cantoni has performed constant research since 1996 and now boasts the widest and most efficient range of illuminated mirrors and workstations in the world, as well as the patent for the exclusive **I-light** lighting system.

The products are designed not only for professional make-up artists, but also those who simply have a passion for make-up and colour.

HOW A CANTONI PRODUCT IS CREATED

The first steps towards bringing the original idea to life are taken by Cantoni's technical office.

Working from a paper sketch to start with, the design is given a three-dimensional aspect using CAD 3D design, which fine tunes the functional details of the product. The design then passes through the hands of expert Italian masters who work closely with Cantoni and are entrusted with the development of prototypes. The prototype is then delivered to Cantoni.

From now on, the prototype is subject to numerous and repeated tests by the various production departments: safety, stability, durability and appearance, every one of these aspects is assessed and refined, at times for years, before a version of the product is deemed ready to launch..

UNIQUE PRODUCTS FROM A TO Z

Each product line by Cantoni follows a different manufacturing process, determined by the materials it consists of: wood products, aluminium products, wall mirrors and plastic products in fact are manufactured using very different methods by artisans with specific expertise. Our supplier network provides us with the highest quality semi-finished products we require and only when we receive an order by the customer the product actually enters production.

Each piece can be then created with attention to every detail by our experts and customized according to customer requirements: interior spaces, type of lighting, print and logo application.

The ideas, attention to detail and passion we put into our work are the features that makes the difference between a copy and the original: a Cantoni station is actually well recognizable thanks to details, that define both functionality and design.

*TOP QUALITY MANUFACTURING.
Cantoni's products are the result of a
perfect balance between italian handcrafting
and a cutting-edge technology*

*EXCLUSIVE PRODUCTS
A Cantoni's product is known by details,
which define its originality, aesthetic,
functionality and design*

The **I-light**, EU patent certified by Cantoni, is the only lighting technology specifically designed for beauty professionals: the system is characterized by a neutral light emission, with no shadow areas, that does not alter the colours. We have studied every single detail: from the distance between the light points, up to the uniformity of the emission, paying special attention to the gradation of colour, set to 4200 Kelvin degrees; we have identified the materials and the ideal solutions to ensure a long service life, low power consumption and total safety.

The light sources do not generate heat and they do not need to be removed or cooled down.

The **I-light** system, like every real design technology, is as functional as it is intuitive to use: with only one switch the lighting system can be turn ON and OFF and it will be possible to adjust and store the brightness.

All of our workstation are equipped with the I-light system, guaranteeing a perfect lighting in any working condition.

CANTONI I-LIGHT LIGHTING SYSTEM

DON'T CALL THEM JUST "BULBS"

I-light light points consist of professional Opalt-tech lenses with a high degree of light refraction which is spread evenly and with perfect colour rendering of the light generated by the LED technology.

DIMMER BUTTON

- . 110-240V compatible
- . Low electrical consumption
- . Photo biological risk free
- . CE certification

MAKE-UP CASES

The make-up cases by Cantoni are available in 3 range types;

EVO pro alternatives: mobile stations unique for line and versatility.

VT pro: robust line of mobile stations, designed for those who love space and efficiency.

VP compact: line of compact stations, born to travel.

EVO LINE

**VT AND
VP LINE**

MOBILE STATIONS UNIQUE FOR LINE AND VERSATILITY

The New Evo line is the result of a redesign of the Evolution model, renown best-seller of Cantoni Evolution case.

Light and handy, this line of mobile make-up stations is characterized, on the outside, by the aluminium profile with rounded corners and, inside, by a remarkable capacity.

Extremely versatile because compact, durable, easy to carry, is the perfect solution for those who travel often, even on foot. It guarantees a professional image at the highest level.

Technical Details

Cantoni has combined the professional quality of the exclusive I-light lighting system (create specifically for make up artists) with large wall mirrors created with essential and simple lines.

The carefully researched distance between the light points, the perfectly neutral colour temperature of 4200 kelvin, the low energy consumption and the total absence of heat emission make them perfect for makeup, professional hairstyling in beauty salons, pharmacies, commercial spaces and makeup schools.

Cantoni's illuminated wall mirrors are divided into two ranges: **MDE and SP**
Italian handcrafted production.

ILLUMINATED WALL MIRRORS

Professional I-light lighting system with 12 dimmable I-light lighting lenses

Extruded aluminium profile, 5° splay internal reverse side

Wall-mounted mirrors with diffused and adjustable lighting based on I-light technology. This exclusive technology yields a 180° light around the face and remove any shadow area.

The mirror does not need any lamp, because it encases the special I-light Opaltech lenses. The I-light technology reflects a led colour mixing at 4200° Kelvin (morning natural light hue).

We recommend this mirror for academies, beauty salons and perfumeries.

- ◆ Anodized aluminium frame with silver chrome finish or painted white/black
- ◆ Splayed 5° frame
- ◆ Lighting system with 12 I-light dimmable lenses
- ◆ **Customizable** surface with company logo or name
- ◆ **Handcrafted in Italy**
- ◆ Safety film
- ◆ 110-240V compatible

A COLLECTION OF MIRRORS FEATURING THE CLASSICAL HOLLYWOOD LIGHTING FOR THE CANTONI BRAND'S 20TH BIRTHDAY

The first Cantoni makeup stations were born 20 years ago.

To remember the first luminous mirrors engineered explicitly for the makeup artists by the brand's founders, Cantoni proposes the Vintage capsule collection, populated by mirrors with the very classical Hollywood style bulbs lighting and featuring the black colour, traditionally associated to the professional make-up sector.

The sturdy and undeformable frame of these mirrors is in black painted aluminium. The frame is bevelled at 5° toward the inside, to optimise the diffusion of the light on the reflected image.

The unmatched Cantoni quality and the ease of assembly and maintenance of these Vintage Hollywood lit mirrors make them perfect to furnish makeup schools and beauty/ hair-style salons.

ITALIAN PRODUCTION
Advanced machines and **robotic procedures**, to ensure **maximum accuracy**

VINTAGE CAPSULE COLLECTION

BACKLIT FRAMES

The 'Visual' line was conceived with the aim of making display advertising, in stores and exhibition spaces, more practical and attractive.

The "Visual" range consists of backlit frames, entirely made in Italy, equipped with the innovative image insertion **spring system**.

LED back lighting, with **minimum power consumption**, gives unparalleled contrast to the **colours of the image**.

Inserting and replacing the photos into the frame is done through a simple **hand pressure**.

The anodized aluminium profile is designed in detail. No external transformer is required, unlike traditional neon/LED lighted panels: all technology of the system is contained in only **4.5 cm thick**.

The sturdy profile allows to create, even customized, special large frames, with the guarantee of a total non-deformability.

The backlit panel by Cantoni, due to its **lightness and ease** of installation, is very close to a **painting**.

*SOLID ANODISED
ALUMINIUM FRAME*

*IMAGES IN BACKLIT FRAMES ARE INTERCHANGEABLE WITH
A SIMPLE SPRING SYSTEM*

VISUAL LINE

Button lighting the luminous frame

LED backlit frame with spring image interchange system, an exclusive by Cantoni. Integrated transformer and power button on the side. Lightweight, anodized aluminium profile of only 4.5 cm, instant set-up.
